MOTOR YACHT

GINGER

GINGER is a 35.05-metre **Pershing 115** high-performance motor yacht delivered in 2006 by **Pershing Yachts**, with a comprehensive refit completed in 2024 at **Dunya Yachts**. The refit introduced upgraded exterior and interior styling, fully serviced machinery, and modernized onboard systems.

Accommodation is arranged for up to 10 guests across four staterooms. The full-beam master suite is located amidships on the lower deck and features dual en-suite bathrooms, a lounge area, and large windows. Forward, the VIP cabin includes a walk-in wardrobe and en-suite bathroom. Additional guest cabins offer flexible configurations, including Pullman berths. Crew quarters for five are arranged across three cabins with separate access.

The interior is styled in a contemporary aesthetic, incorporating oak finishes, carbon fiber elements, and textured materials. The main saloon features a lounge area with a sofa and designer armchairs, as well as a retractable 60-inch screen. A lower saloon has been converted into a dedicated media room with a 65-inch display and home cinema system. Entertainment systems are fully integrated via a Crestron platform, controllable through iPad devices.

As part of the refit, new 55 kW Kohler generators were installed, alongside upgrades to the ASEA Power Systems electrical system, replacement of batteries, and modernization of air conditioning and water systems, including an Idromar watermaker. Hydraulic systems, pumps, valves, and deck equipment were fully serviced, with all electrical and mechanical systems inspected under classification supervision.

GINGER is equipped with a Williams 445 Jet tender and complies with Registro Italiano Navale (RINA) standards, including completion of her five-year survey, confirming her excellent technical condition and readiness for operation.

Combining high-performance capability, modernized systems, and a refreshed contemporary interior, **GINGER** represents a strong option for both private use and charter.
