WIDER 210

WIDER 210 is a 62-metre superyacht currently under construction by **Wider Yachts**, representing a new-generation displacement platform with a steel hull and aluminum superstructure.

With a beam of up to 11.6 metres, a draft of approximately 2.7 metres, a gross tonnage of around 1,200 GT, and a full displacement of approximately 985 tonnes, she offers exceptional internal volume comparable to significantly larger yachts. Naval architecture and design have been developed by Centro Stile Wider in collaboration with Wider's in-house engineering team, focusing on advanced technology integration, flexible layouts, and efficient use of space.

A defining feature of the project is the Wider Serial Hybrid propulsion system. This configuration includes twin electric motors (approx. 1,850 kW each), powered by MAN 12V 175D generators and high-capacity battery banks. The system enables a Zero Emission Mode, allowing up to 15 hours of silent, vibration-free operation at anchor.

Accommodation is arranged for up to 14 guests across seven staterooms. The owner's suite occupies the entire upper deck and includes a private lounge, office, en-suite bathroom, and a forward Jacuzzi. The lower deck hosts four guest cabins, along with a versatile multi-purpose space that can be configured as a spa, cinema, or gym. Crew accommodation for up to 17 is arranged across nine cabins, including a dedicated captain's cabin, ensuring exceptional service and autonomy on extended voyages.

The main saloon integrates lounge and dining areas, with direct access to the aft terrace and beach club. The aft deck features an infinity pool, sunbathing areas, and alfresco dining. The beach club transforms into a multi-level waterside terrace through fold-down side platforms and an opening transom. The upper deck offers additional lounge areas, while forward there is a garage for a 5.5-metre tender and a jet ski. A touch-and-go helipad is also предусмотрена.

Technologically advanced and highly versatile, **WIDER 210** combines hybrid propulsion, expansive volume, and flexible architecture - offering a forward-thinking platform for long-range cruising with a focus on sustainability, efficiency, and next-generation comfort.

SPECIFICATION

SHIPYARD, MODEL	Wider 210
DELIVERY AT THE SHIPYARD	2028
LENGTH	64 m
WATERLINE LENGTH	62.4 m
HULL CONFIGURATION	DISPLACEMENT
BEAM	11.6 m
RANGE	6500
DRAFT	2.69 m
GROSS TONNAGE	1200 GT
YACHT CLASS	RINA
CABINS	7+9
MASTER CABIN	UPPER DECK
GUESTS	14
BERTHS	12+17
CREW	17
HEADS	9+9

EXTERIOR DESIGN	CENTRO STILE WIDER
INTERIOR DESIGN	CENTRO STILE WIDER
HULL	STEEL
SUPERSTRUCTURE	ALUMINIUM
ENGINES	2 x MAN 12V 175D
TYPE OF DRIVE	HYBRID
ENGINE HOURS	N/A
MAXIMUM SPEED	17 kn
CRUSING SPEED	15 kn
FUEL CONSUMPTION AT ECONOMICAL SPEED	N/A
FUEL	130000 l
GREY WATER	N/A
BLACK WATER	N/A
FRESH WATER	20000 l
DISPLACEMENT	985
