MOTOR YACHT

ELADA

ELADA is a 45-metre semi-displacement motor yacht delivered in 2014 by **Bilgin Yachts**. Designed in collaboration with H2 Yacht Design, she combines generous internal volume with efficient performance characteristics.

Powered by twin Caterpillar C32 ACERT V12 diesel engines (1,900 hp each, approx. 3,860 hours), **ELADA** reaches a top speed of up to 18 knots and cruises comfortably at around 15 knots.

Accommodation is arranged for up to 12 guests across six staterooms. The full-beam master suite is located on the main deck and features a private office and an en-suite bathroom finished in onyx. The lower deck hosts a VIP cabin and four additional guest cabins in double and twin configurations, including Pullman berths.

A key feature of **ELADA** is her convertible sky lounge, which can be transformed into a second master suite complete with en-suite facilities and a workspace, significantly enhancing layout flexibility. Crew accommodation is arranged across four cabins, including a dedicated captain's cabin.

The interior design incorporates a refined selection of natural materials, including various woods and stone finishes, complemented by integrated ambient lighting. The main saloon combines lounge and dining areas and offers direct access to the exterior decks and beach club, with panoramic glazing providing uninterrupted sea views.

The aft section features a transformable platform with access to the beach club, while fold-down side terraces expand the usable space at water level. The bridge deck offers an al fresco dining area for up to 12 guests with direct access to the sky lounge. Forward and on the sundeck, Jacuzzi areas with panoramic views are complemented by sunbathing and lounge spaces, creating multiple lifestyle options throughout the day.

Combining increased internal volume, flexible layout solutions, and proven engineering, **ELADA** offers a well-rounded platform suitable for both private ownership and charter operations in the 45-metre segment.
