MOTOR YACHT

## CALM

**CALM** is a 29.1-metre motor yacht built by **Sanlorenzo Yachts** as part of the highly successful **SL96** series, one of the shipyard's most sought-after flybridge platforms. Exterior design is by Francesco Paszkowski, with interiors by Laura Sessa Design. The yacht combines the recognizable **SL-series** profile with a softer, more residential interior atmosphere tailored for comfortable extended stays on board.

The main saloon integrates a spacious lounge area with a flexible dining space that can be adapted to different onboard scenarios. Expansive glazing provides abundant natural light, while dedicated crew circulation routes help preserve guest privacy and ensure efficient service.

Accommodation is arranged for up to 9 guests across four staterooms. The master suite is located on the main deck and features a rare configuration for the **SL96** series, with the bed oriented in the direction of travel, creating a more open and visually balanced environment. On the lower deck, guest accommodation includes a full-beam VIP suite, one double cabin, and one twin cabin. Crew quarters for four are arranged separately across two cabins.

The flybridge is equipped with a hardtop featuring additional sunshade sections, alongside a bar, grill, dining area, and lounge seating. The aft main deck is arranged for al fresco dining and relaxation, while the foredeck offers a more private sunbathing and lounge area ideal for time at anchor.

Powered by twin MTU 16V2000M84 engines (2,217 hp each, approx. 2,494 hours),

**CALM** cruises at approximately 25 knots and reaches a top speed of up to 28 knots. Her GRP planing hull delivers the dynamic performance and responsive handling characteristic of the **SL** series while maintaining comfort during medium-range passages.

An additional advantage is her commercial certification and VAT-paid status, making **CALM** equally attractive for both private ownership and charter operations.
