MOTOR YACHT

SALIVITI

SALIVITI is a 2018 **Sunseeker 86** motor yacht combining recognizable British design, confident performance, and generous interior volume in a practical 26-metre format. VAT paid and maintained with exceptional care, she has spent winter periods stored inside covered sheds, helping preserve her in almost pristine condition.

SALIVITI is an excellent example of the successful **Sunseeker 86** model. The main saloon is bright and open, with large windows providing wide views across the anchorage and strengthening the connection with the sea. The interior is arranged for relaxed social living, with a lounge area, dining space, well-equipped galley, and full laundry setup, making the yacht comfortable both for short outings and longer stays on board. The entertainment system is also in keeping with the yacht's level: Samsung Smart TVs, Harman Kardon surround sound, Sonos audio zones, and Sonance speakers create a high-quality audiovisual infrastructure across the key areas.

Accommodation is arranged for 8 guests across 4 en-suite cabins. On the lower deck, the layout includes a spacious owner's cabin, a forward VIP cabin, and two guest cabins, each of which can be configured either as a double or with twin beds. Outdoor spaces are one of **SALIVITI's** strengths. The flybridge offers a complete social area with seating, a refrigerator, ice maker, electric grill, and audio system. The hydraulic swim platform, Besenzone passerelle, and foredeck audio zone further enhance practicality and comfort when using the yacht in a Mediterranean style.

SALIVITI is powered by twin MTU 12V 2000 M96L engines, each rated at 1,800 hp. With relatively low hours - approximately 922 hours on the port engine and 927 hours on the starboard engine - she offers confident performance, with a cruising speed of 21 knots and a maximum speed of 28.5 knots.

Overall, **SALIVITI** is a strong proposition among **Sunseeker 86** yachts: a carefully maintained, VAT-paid example with low engine hours, a flexible four-cabin layout, a rich technical specification, and well-planned outdoor spaces.
