SPIRIT OF PONANT

SPIRIT OF PONANT represents one of the most compelling opportunities currently available in the large luxury catamaran market. Delivered in 2024, she combines an impressive 135 GT of internal volume, an 11-metre beam, accommodation for 12 guests in 6 cabins, and an already proven charter track record.

With her exceptional beam and substantial internal volume, **SPIRIT OF PONANT** offers living spaces more commonly associated with significantly larger motor yachts. The catamaran platform provides outstanding stability, expansive social areas and a high level of comfort both underway and at anchor, creating an onboard experience that feels remarkably spacious for a yacht of this size.

One of the yacht's key strengths is her six-cabin layout for up to 12 guests. This configuration is a significant advantage in both private ownership and commercial operation, as accommodation of this scale is rarely found within the 75–80-foot segment. The layout offers excellent flexibility for families, large groups and charter guests while maximising the yacht's earning potential.

SPIRIT OF PONANT has already established herself as a successful charter platform, making her an attractive proposition not only for private owners but also for buyers seeking a yacht with proven commercial appeal and strong charter credentials.

Another notable advantage is her exceptionally efficient operation. Fuel consumption is approximately 6 litres per hour per engine at 6 knots and around 18 litres per hour per engine at 8 knots, figures that are substantially lower than those typically associated with motor yachts offering comparable volume and guest capacity. This efficiency contributes to reduced operating costs while enhancing the practicality of extended cruising.

Combining remarkable volume, exceptional guest accommodation, proven charter performance and highly efficient running costs, **SPIRIT OF PONANT** stands out as a rare opportunity in the growing market for large luxury catamarans.
