SYNTHESIS

SYNTHESIS is a 74-metre superyacht delivered in 2021 as the fifth hull of the highly successful **Amels 242 Limited Editions** series. Combining exterior design by Tim Heywood, award-winning interiors by Winch Design and an impressive internal volume of approximately 1,790 GT, she offers a level of space, flexibility and functionality more commonly associated with significantly larger yachts. In 2023, **SYNTHESIS** underwent a substantial upgrade programme at **Oceanco**, followed by a comprehensive refit at Amels between 2025 and 2026. The works included her five-year class survey as well as a complete repaint of both the hull and superstructure. As a result, she is presented in outstanding turnkey condition and is fully prepared for immediate operation without the need for further investment. One of the yacht's defining characteristics is her highly versatile layout. Rather than concentrating the primary social spaces around a single formal saloon, **SYNTHESIS** distributes her entertainment, dining and relaxation areas across multiple decks. This approach creates a more residential atmosphere, increases privacy for guests and allows different areas of the yacht to be enjoyed simultaneously without compromising comfort or functionality.

The interiors, created by Winch Design and recognised with the BOAT Design & Innovation Award for Best Interior Design – Motor Yachts Above 500GT, combine light-toned materials, natural stone finishes, bespoke furnishings and expansive panoramic glazing. Large windows flood the living spaces with natural light, enhancing the connection to the surrounding environment while creating an inviting and comfortable atmosphere throughout the yacht.

The result is a highly refined onboard environment that balances elegance with practicality, making **SYNTHESIS** equally suited to private ownership, extended cruising and large-scale entertaining. Combining proven pedigree, recent upgrades and exceptional volume, she remains one of the most compelling offerings in the 70-metre market.
