ST JUDE

ST JUDE is a 2025 Azimut Grande 26M presented in exceptional condition and professionally managed by a dedicated crew since delivery. With approximately €2 million invested in factory options, technical upgrades and bespoke enhancements, she stands among the highest-specified Grande 26M yachts ever built and offers a rare opportunity to acquire a virtually new yacht without the lead time associated with a new-build project.

Offering approximately 122 GT of internal volume and accommodation for up to 11 guests, **ST JUDE** combines the proven Grande 26M platform with a level of equipment and customisation rarely found within this segment of the market. Every aspect of the yacht has been carefully specified to enhance comfort, functionality and long-term ownership experience.

One of **ST JUDE's** most significant advantages is her comprehensive stabilisation package. The yacht is equipped with both fin stabilisers and an upgraded Seakeeper 35 gyroscopic stabiliser, delivering exceptional comfort both underway and at anchor. This dual-system configuration significantly reduces motion in a wide range of conditions, enhancing the onboard experience during extended cruising and time spent at anchor.

Performance and manoeuvrability have also been enhanced through a combination of upgraded MAN V12 engines, joystick controls and advanced propulsion systems. Together, these features provide excellent handling, simplified docking procedures and improved operational efficiency, making the yacht equally comfortable for owner operation and professional crew management.

With her extensive specification, proven design platform and virtually new condition, **ST JUDE** represents one of the most compelling opportunities currently available in the 26-metre market, combining the benefits of a recent delivery with a level of equipment and refinement rarely achieved even among new-build examples.
