MOTOR YACHT

LORI

LORI is a 41.8-metre **Ocean King Doge 400 GT** delivered in 2024 and designed for owners seeking genuine long-range cruising capability without compromising on comfort, contemporary styling or onboard amenities. Featuring a steel hull, aluminium superstructure and naval architecture by Simon Rogers, she combines the robustness and reliability of an explorer platform with modern Italian design and exceptional cruising autonomy.

With an internal volume of 335 GT, accommodation for up to 10 guests and a range of approximately 5,500 nautical miles, **LORI** is equally suited to extended private voyages, remote cruising destinations and commercial charter operations. Within the 40-metre segment, few yachts offer such a compelling combination of volume, range and self-sufficiency in such a contemporary package.

Built by **Ocean King**, a shipyard renowned for its commercial and expedition heritage, **LORI** has been engineered with long-distance cruising at the forefront of the design brief. Her substantial 55,000-litre fuel capacity, 15,000-litre freshwater capacity and efficient MAN propulsion system provide the endurance and reliability expected of a true explorer yacht while maintaining the comfort and refinement associated with modern superyacht ownership.

The result is a yacht capable of undertaking ambitious cruising itineraries with confidence, offering owners and guests the freedom to explore remote regions while enjoying spacious accommodations, contemporary living spaces and a high degree of onboard independence.

Combining expedition capability, modern design and impressive long-range credentials, **LORI** stands out as one of the most versatile and capable yachts in her class, equally at home on extended private adventures or operating as a premium charter platform.
