ASTRID

ASTRID is a **Ferretti Yachts 780** delivered in 2019, representing one of the most successful and sought-after flybridge models ever produced by the renowned Italian shipyard. Combining elegant styling by Zuccon International Project, strong performance and a highly practical four-cabin layout, she offers an exceptional platform for private ownership, family cruising and extended time on the water. Both the exterior and interior were designed by Zuccon International Project, creating a yacht that balances contemporary Italian elegance with functionality and comfort. Expansive panoramic glazing, generous outdoor living spaces and a substantial 5.8-metre beam provide a level of volume and onboard comfort more commonly associated with larger yachts, while maintaining the sleek profile and dynamic character for which the **Ferretti 780** is renowned.

One of **ASTRID's** most notable advantages is her comprehensive stabilisation package. She is equipped with both Humphree fin stabilisers and a Seakeeper gyroscopic stabiliser with Zero Speed functionality, delivering exceptional comfort underway and significantly reducing motion while at anchor.

Her specification has been further enhanced with a carefully selected range of premium equipment, including a Williams SportJet 395 tender, a third docking station for improved manoeuvrability, an Idromar watermaker, a FLIR thermal imaging camera and an expanded navigation package. Together, these features enhance safety, operational flexibility and long-range cruising capability.

Combining one of Ferretti's most successful platforms with an extensive specification and advanced stabilisation systems, **ASTRID** stands out as a highly desirable example of the model, offering comfort, practicality and effortless cruising throughout the Mediterranean and beyond.
