HELIOPHILIA

HELIOPHILIA is a highly customised **Sirena 88** delivered in 2024, combining exceptional interior volume, a cruising range of up to 2,290 nautical miles and one of the most distinctive layouts ever configured on this successful platform. Designed for extended periods on board, she offers a rare balance of comfort, practicality and long-range capability, making her equally suited to private ownership, family cruising and extended voyages.

Unlike a standard **Sirena 88**, **HELIOPHILIA** features a highly personalised layout that significantly enhances day-to-day liveability. Custom additions include a dedicated office, a separate TV lounge and an additional guest day head on the lower deck. These rarely seen features create a more versatile onboard environment and make the yacht particularly appealing for owners who spend extended periods living aboard.

With a 7.1-metre beam and an internal volume of approximately 154 GT, **HELIOPHILIA** delivers a level of space typically associated with substantially larger yachts.

Another key advantage is her enlarged 14,000-litre fuel capacity, which provides an impressive range of up to 2,290 nautical miles at economical cruising speeds. For a yacht of approximately 27 metres, this places her among the strongest performers in her class for long-distance cruising.

Accommodation is arranged for up to nine guests in four cabins. The full-beam owner's suite is positioned on the main deck and benefits from direct access to a private foredeck terrace with an outdoor dining area. Rarely found on yachts of this size, this feature creates an exclusive retreat for the owner, offering privacy, uninterrupted sea views and a unique connection to the surrounding environment. Combining substantial volume, exceptional range and a thoughtfully customised layout, **HELIOPHILIA** stands apart from other **Sirena 88s** on the market, offering a highly practical and refined platform for comfortable long-range cruising and extended life on board.
