SAVIENNE

Built in 2023, the **Ferretti Yachts 860** perfectly reflects the Italian shipyard's signature philosophy, combining contemporary design, generous living spaces and confident seakeeping within one of the most successful flybridge models in her class. With only around 300 engine hours, she is presented in near-new condition and is fully prepared for immediate cruising. Based in Malta, she offers a rare opportunity to acquire an almost-new Ferretti without the wait associated with a new build. Accommodation is arranged for up to eight guests in four beautifully appointed en-suite cabins. The full-beam owner's suite occupies the most privileged position on the main deck, offering exceptional space, privacy and abundant natural light more commonly found aboard significantly larger yachts. Separate accommodation for three crew ensures first-class service while preserving the privacy of owners and guests throughout every voyage.

The interior showcases **Ferretti's** refined contemporary aesthetic, where floor-to-ceiling glazing, clean architectural lines and carefully selected materials create a calm, light-filled atmosphere. The result is a sophisticated yet welcoming environment, equally suited to extended cruising or relaxed time on board with family and friends.

Life aboard naturally revolves around the yacht's expansive exterior spaces. The spacious flybridge, aft cockpit and hydraulic swim platform combine to create a seamless outdoor environment, allowing guests to move effortlessly between sunbathing, al fresco dining, swimming and entertaining while making the most of every anchorage.

Powered by twin MAN engines, a deep-V hull, fin stabilisers and a Seakeeper system, the **Ferretti Yachts 860** delivers smooth, confident performance both underway and at anchor. With a range of approximately 800 nautical miles, she is ideally suited to extended Mediterranean cruising, allowing owners to explore further with fewer fuel stops and complete peace of mind.
