ARMONEE

ARMONEE is a 23.2-metre flybridge motor yacht built by **Couach** in 2017 as part of the 2300 Fly series. This model represents a natural evolution of the shipyard's 1800, 1900 and 2200 lines, retaining Couach's signature performance while benefiting from updated hull architecture, modern onboard systems and advanced composite construction. Teak decks run throughout, and the hull is finished in a distinctive silver-brown colour. With a beam of 5.77 metres and a draft of just 1.35 metres, **ARMONEE** is well suited to Mediterranean cruising, anchoring in shallow bays and accessing marinas with limited depth.

The layout accommodates up to eight guests in four cabins. Three cabins are notably spacious, while the fourth is designed for teenagers or occasional guests. The interior features a neutral grey and beige palette, combining natural wood, marble, parquet flooring and high-quality textiles to create a calm and contemporary atmosphere. Lighting, blinds and multimedia systems are fully integrated into an onboard automation system. A separate crew cabin for two ensures discreet and efficient service.

Power comes from twin MAN V12 engines, each producing 1,400 hp, delivering a comfortable cruising speed of around 24 knots and a top speed of up to 34 knots. Noise and vibration levels are kept to a minimum thanks to underwater exhausts, specialised engine mounts and zero-speed gyroscopic stabilisers, enhancing comfort both underway and at anchor.

Flying the French flag and maintained in very good condition, **ARMONEE** is a modern flybridge yacht designed for owners who value a combination of performance, comfort and **Couach's** engineering expertise.
